datacamp

Tech companies are becoming data-driven with DataCamp

Innovative tech companies with a combined net worth over $5 trillion leverage DataCamp to understand their customers and personalize experiences

FACEBOOK · verizon · Google · Uber · SiriusXM SATELLITE RADIO

Apple · Microsoft · ebay · ZILLOW GROUP · SAMSUNG · Adobe

Use cases

Forecasting · **AI & machine learning** · **Natural language processing** · **Analytics & IoT**

"The world is generating more and more data. We really owe it to ourselves to make that data useful. Wasting all of our time and resources on type three error after type three error is a very sad state of affairs. So it's really time for us to take this seriously, because we just have so much of it. Let's do good, beneficial things with it."

CASSIE KOZYRKOV, CHIEF DECISION SCIENTIST AT GOOGLE CLOUD

Our instructors are the best in the world

Our expert instructors are represented at leading companies and universities
